Product news #3

2018-10-30/ABIR

Product relevance:	<input checked="" type="checkbox"/> Denmark	<input checked="" type="checkbox"/> Finland	<input checked="" type="checkbox"/> Sweden	<input checked="" type="checkbox"/> Norway
Brand name:	Alliance			
Product name:	344 LP (Low pressure)			
Size range:	710/40-24.5, 710/45-26.5, 750/55-26.5, 800/40-26.5			
Expected availability date:	Winter 2019			

➤ **The World's 1st Low Pressure Forestry Tire**
ELIT (Engineered Low Inflation Tire) Technology

- The main influence on forestry soil fertility is excessive compaction, which could be significantly reduced by reduction of tires inflation pressure.
- ELIT brings constructional enhancements, enabling this tire to carry same load as a standard forestry tire at reduced (half) air pressure or even less than that.
- Low pressure ensures larger footprint, high traction and fuel efficiency.
- The 344 ELIT is designed with improved construction and strong sidewall enables the tire to **carry same load as standard forestry tire with half of the air pressure value.**
- For additional information – feel free to contact purchagro@ndi-dk.com

Vision

We aim to be our customers preferred supplier of tyres and wheels

Mission

We keep your business running
