<b>Product relevance</b>	<input checked="" type="checkbox"/> Denmark	<input checked="" type="checkbox"/> Finland	<input checked="" type="checkbox"/> Norway	<input checked="" type="checkbox"/> Sweden
<b>Brand name:</b>	Mega Wheels			
<b>Product name:</b>	Hercules			
<b>Size range:</b>	15", 16", 17" and 18"			
<b>Expected availability date:</b>	Spring 2019			

- In the spring of 2019 we will introduce a new Mega Wheels alloy wheel for vans, mobile homes and some popular 4x4 cars.
- We have chosen the name Hercules for the new wheel. The name is found in astrology just like the other of our recent Mega Wheels designs, but Hercules is also known as a character from Roman mythology, where he was famous for his strength and power.
- Hercules will be available in 5 specs in 15", 13 specs in 16", 4 specs in 17" and 3 specs in 18".
- 15" and 18" will have a load capacity of 1150 kg (same as the predecessor Ferrera). 16" and 17" will have a load capacity of 1300 kg to meet the increasing requirements especially in the mobile home segment.
- The program will cover the same vehicles as Ferrera plus a list of additional vehicles, for which we will now also be able to supply wheels. These are a.o. Fiat Dobló, Peugeot Expert, Toyota ProAce, Nissan Navara, Mercedes X-Class, Mitsubishi Outlander and Isuzu D-Max.
- The full program will be available in silver colour. The 8 most sold specs will also be available in anthracite with polished spoke edges.
- The wheel will have 5 or 6 spokes for applications with 5 and 6 studs respectively. This is also reflected in the names Hercules 5 and Hercules 6.
- The caps for Hercules in silver and anthracite/polished are the same as for Virgo and Virgo Dark respectively.
- Hercules will replace Ferrera step by step as Ferrera is being sold out.

#### Vision

We aim to be our customers preferred supplier of tyres and wheels

#### Mission

We keep your business running
